Pupil-first School,Online.

**INTERNSHIPS**

Completed Training And Internship on Web Development from

Coincent.( 2 months)

Completed Internship on Full Stack Web Development from 24hr7

commerce private limited.( 6 months)

## PROJECTS

**Job Portal Development**: I spearheaded the development of a comprehensive job portal project, facilitating seamless job application processes for users while empowering companies to post their vacancies effortlessly. Leveraging a stack comprising HTML, CSS, JavaScript, PHP, and MySQL, the platform ensured efficient job matching and streamlined recruitment procedures.

**Company Budget Calculation Application:** I led the development of a sophisticated company budget calculation application utilizing React JS and Node JS technologies. This robust solution provided companies with the capability to meticulously calculate and manage their budgets, enhancing financial planning and decision-making processes.

**Reminders System with Face Recognition Integration:** I conceptualized and implemented a cutting-edge reminders system integrated with face recognition technology, employing AIML (Artificial Intelligence Markup Language). This innovative solution allowed users to receive personalized reminders based on facial recognition, blending AI advancements seamlessly into daily routines.

**E-commerce Website Development:** I played a pivotal role in the creation of a fully functional e-commerce website, employing a comprehensive tech stack including React JS, Node JS, Express, and MySQL. This dynamic platform facilitated seamless online transactions, ensuring an immersive shopping experience for customers while enabling efficient inventory management and order processing for businesses.
